

Scholar's University

Eagle's Nest Academy Families we want our scholars to continue learning while they are out of school due to the Weather. Please have your scholars spend two hours a day reading, reviewing math problems, and even watching some interesting history/science videos. You can divide the time by giving 30 minutes to our Core Subjects (Reading, Mathematics, Science, and Social Studies) or spend one hour each with Mathematics and Reading/Writing.

Thank you for partnering with us, we don't want any of our scholars to experience a loss in learning during the time they are away.

Let your children learn about everything from anatomy to phonics online with these educational websites that are free and fun for kids.
